

Monogram Executive Toilet (MET)

Introducing the new Monogram Executive Toilet (MET), specifically designed for your business aircraft. Weighing in at only 9.0 lbs, the MET provides the right balance of composite innovation combined with proven technology from over 40,000 toilets currently in service

COMPOSITE TECHNOLOGY

Monogram has incorporated high strength composite materials in over 80% of the MET, resulting in a significant 22% weight reduction over previous commercial transport models

PROVEN RELIABILITY

Our waste systems are backed by over 50 years of aerospace experience, making them the benchmark in the aviation industry. By combining composite materials in a bowl and pedestal design optimized for executive aircraft with flush and rinse valves proven for commercial transport, the MET provides the balanced solution to your application. Monogram's orbital(TM) flush valve has reliably handled over 6 million operational cycles.

EASY RETROFITTING

We've also devised the MET for maximum compatibility with your existing business aircraft

Monogram Executive Toilet (MET)

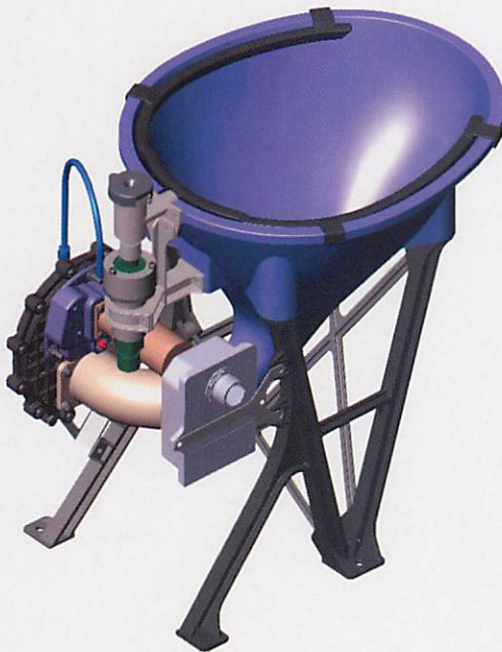

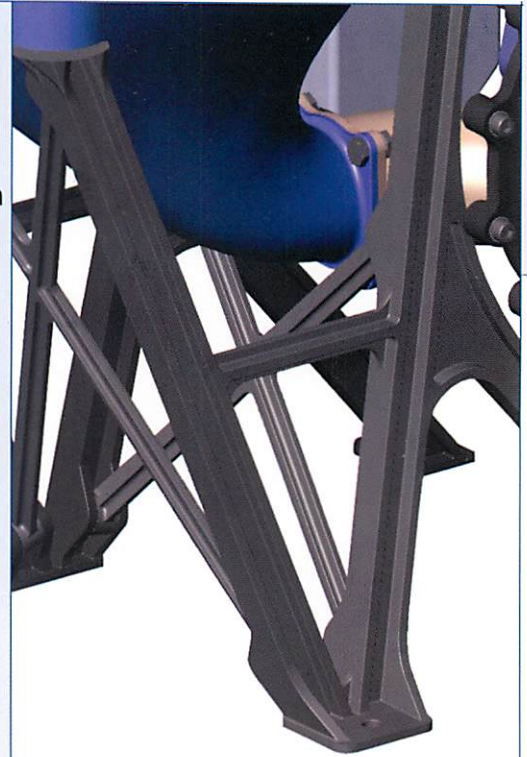

SPECIFICATIONS

- Weight: 9.0 lb
- Electrical: 28 VDC, 2.5 A nominal
- Drain outlet: quick disconnect 2" O.D.
- Rinse water inlet: quick disconnect .5" O.D.
- Floor mount: industry standard 4 bolt pattern

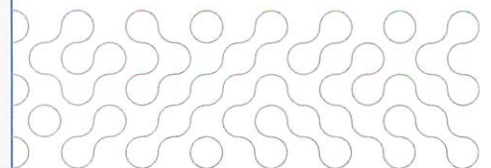

ADDITIONAL FEATURES

- Standard mounting for easy installation
- Modular components for maximum serviceability
- Floating poppet anti-siphon valve protects water supply
- Rinse ring for maximum bowl coverage
- Waterproof control unit includes switch for easy drain line maintenance
- High torque motor for world class performance, reliability and contamination resistance
- Durable, precision flush valve
- Airtight flush valve seals for cabin odor control
